

## Using databases for emission limits.

1. The US EPA RBLC database:

<http://cfpub.epa.gov/rblc/htm/bl02.cfm>

Go to “Search database” in the left-hand column; on the next page go to “Regulation Data Base” in the left hand column and go to “Scan all”

One needs to click on the specific process to find the specific regulation under which the limit was issued.

2. The EU Integrated Pollution Prevention and Control Directive:

<http://eippcb.jrc.es/pages/FActivities.htm> and select the Best Available Technique

Reference guide for your sector. Pay attention to the downloading instructions; these are large documents.

3. The New South Wales Emission Regulation: Full text available from

<http://www.legislation.nsw.gov.au/viewtop/inforce/subordleg+642+2002+first+0+N>
